

THE OFFICIAL CAMP AND CLINIC
OF MAJOR LEAGUE SOCCER

Head Office
47 Water St
Mystic, CT
06355

Dear Parents & Board Members of Peters Twp SA,

This fall will see the start of a training program which will be delivered by Major League Soccer Camps. The relationship between Peters and MLS camps is growing all the time and we are very excited to be helping nurture the talent of Peters Twp. I believe this move by the Peters Twp SA board members goes a long way to showing their commitment to your children. The emphasis is not on buying the best equipment or the fanciest uniform but on what is important.....the development of your child both as a soccer player and a person.

Professional training at a young age can cement the core competencies of a player, meaning when they hit the high school level they will be able to move onto more complex tasks in soccer. Furthermore having an MLS trained pro-coach as a resource for the club will ensure the volunteer coaches have the support of a professional, whether that be in advice, supporting session plans or even practical support.

MLS Camps coaches are all Strength-Based Coaching certified. This means that all of the above is happening in a positive environment, to ensure the learning is at a premium. Strengths-Based Coaching is a concept derived over years and is the concept of creating a positive atmosphere where young people aren't afraid to make mistakes.

I am really excited to be working with Peters Township SA for the near future and will ensure our pro-trainers deliver the best training in the area, which is supported by myself and our Director of Coaching Peter Mulhern.

Yours Sincerely,
